

# Instruction Manual

## FELDO Fashion Watch V1, V2 and V3

### General Features and Components

Case diameter 45 mm

Stainless steel case (Black PVD (V1 and V3) or shiny polished (V2))

Japanese (Citizen / Miyota 2S60) quartz movement

Scratch-resistant cambered sapphire crystal glass

22 mm wide wrist strap (silicone)

Built to withstand pressures of 5 bars (equivalent to a depth of 50 meters)

Weight of 90 g incl. strap

### How to read the time

The watch indicates the actual time via two discs and a window. The picture on the left shows the discs and the window. The hour hand is cut to the inner silver shining disc. Actually it is located at eleven o'clock (the carbon structure is to see through).

The minute hand is located at the right site on the carbon structure. It is a fixed 3D triangle pointer and actually it indicates ~ 00 minutes. The seconds hand is rotating over the hour disc.

So the actual indicated time is: 11:00:35

### Positions of the crown

Pull out crown to the second click position and turn the crown until the time is set correctly. Push back the crown.

### Specifications

CALIBRE 2S60

## Guarantee

Thank you very much for purchasing a FELDO wristwatch. The guarantee shall remain in effect for two years subsequent to the date of purchase. Within this time period the FELDO watch shall be repaired upon presentation of the of this guarantee paper. The guarantee does not cover batteries or outside components, nor does it cover defects attributable to inappropriate use, neglect, tampering with the watch or normal wear and tear.

### Resistance (rain / water)

5 ATM / 50 m

According to the EU legislation all electrical products or battery driven products have to be recycled. So it is not allowed to throw these parts and batteries into the household waste disposal.

### ROHS Compliance

The RoHS Directive stands for "the restriction of the use of certain hazardous substances in electrical and electronic equipment". This Directive bans the placing on the EU market of new electrical and electronic equipment containing more than agreed levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants. FELDO ensures that the products, and their components, comply to the ROHS directive.
